## SINGULAR SENSATION

### Ice Crystal Sconce

One of legendary decorator William Haines' most stunning creations, this sparkling Lucite fixture finally gets the star treatment. Only two were made in 1953, but now, a limited edition of the idiosyncratic design—think old Hollywood meets *Fortress of Solitude*—is being produced by the very workshop that did the originals. Price available on request. [info@williamhaines.com](mailto:info@williamhaines.com)
